THE true test of a thoroughbred is the way in which it performs under adverse conditions. So, of course, you can put the Single-Six over your own hurdles.

"It Rides Like an Airplane and Hums the Packard Song"

More than four thousand owners now know the goodness of the Packard Single-Six and revel, almost vaingloriously, in its striking performance.

"It rides like an airplane", savs one, "and hums the Packard song".

"I have yet to encounter a hill that my Single-Six won't climb in high-gear, and gain

ascent", is the comment of another. And a third adds: "It picks up speed quicker

momentum, in almost every instance, on the

than any car I have ever driven in fifteen years of automobile experience". We want you to know the Packard Single-

Six as these owners know it; to regard it as they regard it, as a good and true friend, worthy of their wholesome respect.

We want you to thrill at the touch of the Single-Six accelerator, to sense the ease and security that comes with the grasp of the steering wheel, to humble fifty or more rolling, weaving miles in ninety

minutes or less.

So we ask you to ride in a Single-Six this month, not for just a few minutes but for an hour at least. You can make an appointment for such a demonstration by calling at our salesrooms, or by letter or telephone.
